

Peace River High School

Complementary Course: **Yearbook 9**

The overall goal of this course is to develop a yearbook that is colourful, creative and informative for Peace High students. Our job is to tell a story of the 2015 / 2016 year through photos so readers can relive the memories after years have gone by. With so much material to cover it is important we have a working blueprint to keep ourselves organized and on track.

Jostens is the company we use to produce the yearbook, using the website www.yearbookavenue.jostens.com
